Dear Interested Party:

The Stanislaus National Forest is initiating scoping for the Clark Fork Corral Replacement Project. The proposed Clark Fork Corral Replacement Project is located on the Summit Ranger District of the Stanislaus National Forest in Alpine County. Refer to the scoping package for a map of the project area.

The Stanislaus National Forest is seeking initial scoping comments on the Clark Fork Corral Replacement Project. The project involves construction of a new corral near Clark Fork Road.

The Forest Service intends to prepare a Decision Memo for this proposal under the category: Post-Fire rehabilitation activities, not to exceed 4,200 acres (such as tree planting, fence replacement, habitat restoration, heritage site restoration, repair of roads and trails, and repair of damage to minor facilities such as campgrounds), to repair or improve lands unlikely to recover to a management approved condition from wildland fire damage, or to repair or replace minor facilities damaged by fire. [36 CFR 220.6(e)(11)]. I expect to complete and sign a Decision Memo by November 10, 2019.

You are receiving this notice because I believe you may be directly or indirectly affected by this project. Additionally, the intent of the Forest in scoping this project is to engage in a transparent and inclusive collaborative planning process. As such, we request that you review the scoping package and share either your suggestions or endorsement of the actions.

A scoping package that provides information related to the proposed action, the scoping process and how to submit comments is available online at: <https://www.fs.usda.gov/project/?project=56676>; or at the Stanislaus National Forest Headquarters; 19777 Greenley Road; Sonora, CA 95370.

Comment [CDE-1]:

For additional information regarding this project, please contact Dawn Coultrap at the Stanislaus National Forest Supervisor's Office; 19777 Greenley Road; Sonora, CA 95370; or call 209-288-6315, or email decoultrap@fs.fed.us.

Thank you for your interest and participation in the environmental analysis process.

Sincerely,

Sarah LaPlante
